

Systems Process Flow

Each project follows a “cradle-to-grave” life cycle.

My COI is a companion application that tracks & records financial conflicts of interest for all PI’s, CO-I’s and some Key Persons named on proposals.

COUHES Connect is a companion application which manages protocols associated with research involving human subjects.

CAC Connect is a companion application which manages protocols associated with research involving animals.

Agreement Module is a companion application for processing NDA, DUA, MTA requests and negotiations with sponsored awards.

Research@MIT is an app offering PIs and Administrators streamlined tools for research administration, collaboration, compliance, and innovation management.
